

# The FastPack<sup>®</sup> IP System

The FastPack<sup>®</sup> IP System is a fully automated quantitative immunoassay analyzer specifically designed to be used in the practice laboratory. Utilizing sophisticated chemiluminescence detection technology, your practice can now have the capability to produce laboratory accuracy and precision at the simple push of a button. The system requires minimal space, yet will present huge benefits when incorporated into your practice laboratory.

# MEET THE FUTURE OF PERSONALIZED HEALTHCARE

**The FUTURE is NOW**  
Provide patient side solutions  
Boost patient satisfaction  
Increase practice efficiency  
And, it's perfect for  
Small, Medium and Large practices

**SIMPLE**  
No specialized training required

**FAST**  
12 minute results

**ACCURATE**  
Laboratory accuracy and precision

**PRODUCTIVE**  
Generate immediate revenue

**The FastPack<sup>IP</sup> System**  
YOUR FUTURE IS HERE!

**WHAT A  
DIFFERENCE  
12 MINUTES  
CAN MAKE**

Patients will have test results before they leave their exam  
Replacement therapy can now be adjusted on the spot  
No retrieving test results from an outside lab  
No need for a patient call-back with test results
